*Fees:

Additional information to include on the form:

For customers participating in the time period from July 1, 2005 and June 30, 2006, please include the initial production meter reading and start date. Blaine City Light staff took the end-of-period meter readings for all of our grid tied customers on June 30, 2006. The initial meter read number subtracted from the meter reading taken on June 30, 2006, will determine the number of kWh produced.

Make sure you've included the following with your application

- Copy of completed state certification form
- *One-time **fee of \$25** made out to City of Blaine

***Fees:** This Incentive Payment Program is in the beginning stages of implementation. Blaine City Light has set the fees as stated on this checklist. Although we expect that these will be the fees going forward, it is possible that we will make modifications as we gain program experience.

Questions? Call Blaine City Light: (360) 332- 8820.
